*Vocals by Paul Bobal and Quincy Yeates*

I wanna take you on a magic cruise  
Tickle your heart and feel your groove  
I wanna give you the right of way  
I wanna see you every night and day  
Come on now give your magic touch  
Take me away on your velvet crush  
Let me see how your body moves  
To the rhythm of the steel drum grooves

Today's a different day  
I wanna take you away, away, away  
No matter what anybody has to say  
I wanna take you away, away, away

Come on baby let me take the grey  
Turn it around and let me make your day  
It's like Aladdin's magic ride  
Your favorite fantasy I can provide  
I'd like to feel you moving under me  
In an erotic kind of harmony  
The sort of passion that you can't contain  
Let me immerse you in a lover's rain

I wanna take you on a magic cruise  
Hold you forever in an enchanted mood  
Let's leave reality and sail away  
And be together every night and day  
Come on now let's explore our secret touch  
And find a way into a lover's rush  
You know I love to feel your body move  
To the rhythm of the steel drum groove
