

# Take Me

©Yeates/Bobal

*Vocals by Quincy Yeates and Paul Bobal*

Take me in winter, Take me in summer  
Take me when it's time to go home  
Feed me your magic, show me your secret  
Take me when it's time to go home  
Just accept that this is real, don't ignore the things you feel  
Take me home, take me home  
And the way that we decide is in the way that we collide  
Take me home, Take me home

Introduce me to the way you feel  
Let me see the thoughts that you conceal  
Embrace me with your symphony  
Pleasure me secretly

Don't keep searching for the things to say  
It's a feeling words just can't convey  
I'll give you something you can hold on to  
So take my love all the way
